2010 Clean Transportation Exposition Rules and Regulations

In purchasing exhibit space for the 2010 Clean Transportation Exposition, exhibitors accept the rules and regulations outlined below.

Definitions

Clean Transportation Exposition is being co-hosted by Kansas City Regional Clean Cities Coalition (KCRCCC) and Metropolitan Community College – Longview (MCC-Longview). References in these Rules and Regulations to CTE refer to both entities. The event itself is referred to as the Expo.

Qualifications to Exhibit

The purpose of the Expo is to feature products and services that meet industry standards in displacing petroleum, reducing dependence on foreign oil, and demonstrate environmentally beneficial emissions reductions. Products and services exhibited at the Expo must be available for purchase and must meet all appropriate government rules and regulations. Because of conflicting evidence regarding devices and products that claim to increase fuel economy (for example but not limited to air flow devices, magnets, hydro assist, gas pills or fuel additives), the Exposition may not allow exhibits or other features of such products.

Assignment of Space

CTE shall use their best efforts to fulfill exhibit space requests made by the exhibitor but make no guarantees as to availability of such specially requested amenities.

Cancellations

No refunds will be issued, no exceptions.

Compliance with Laws and Rules and Regulations

Exhibitor agrees that its use of the exhibit space will comply with all federal, state, and local laws, ordinances, and regulations. The exhibitor agrees to comply with the policies of CTE.

Description of Exhibit

All exhibitors must provide a description of the products and/or services that will be displayed. If vehicles will be displayed, a complete list of the model, year, make, and fuel of displayed vehicles must be submitted by October 8, 2010. All engines or conversion systems must be EPA certified.

Exhibitor Applicability

CTE reserves the right to determine the industry-related applicability of exhibitors to ensure that the company's services or products work to advance the sales and use of alternative fuels, vehicles and/or advanced vehicle technologies. Exhibitors displaying non-electric vehicles, conversion systems or converted vehicles must demonstrate that they have EPA certification issued or renewed in 2009 or 2010, or they must receive a waiver from CTE before they may exhibit.

Exhibitor Costs

Exhibitor fees cover only those items described in this contract. Any other furnishings and equipment must be furnished by the Exhibitor.

Exhibitor Tear-Down

Early tear-down is defined as disassembling and/or removing any part of your exhibit prior to the published closing time of the Exposition. Early tear-down is prohibited.

Failure to Hold Exhibition

CTE shall not be financially obligated or otherwise committed in the event of the exhibition being canceled or deferred due to Force Majeure, including fire; flood; riot; earthquake; civil commotion; insurrection; act of nature; labor disputes; strikes; terrorism; wars; shortage of or inability to obtain materials, supplies or utilities; or any law, ordinance, rule, regulation; or any other cause beyond CTE's reasonable control.

Indemnification and Hold Harmless Clause

Exhibitor agrees that it will conduct its activities upon the premises so as not to endanger any person lawfully thereon and agrees to indemnify and hold harmless CTE (the "Indemnified Party") from any and all claims, demands, losses, liabilities, costs or expenses of any nature whatsoever. The Exhibitor hereby assumes full responsibility for the acts and conduct of all persons admitted to the premises by consent of Exhibitor, and Exhibitor agrees to pay damages for any damage to MCC-Longview or premises resulting from its use or occupancy thereof, or from persons participating with or attending the function contemplated by this agreement.

Insurance

The Exhibitor acknowledges that CTE do not maintain and are not responsible for maintaining insurance covering personal injury to the exhibitor or the exhibitor's property. The exhibitor also acknowledges that it is the sole responsibility of the exhibitor to obtain insurance covering such losses or damages. It is highly recommended that exhibitors obtain all-risk insurance for their exhibits.

Security

Exhibits at the Expo will be held outdoors. Reasonable efforts will be made to prevent loss, but CTE maintain no security for the Expo. The final responsibility for property security lies with the exhibitor. CTE assume no responsibility for property placed in the exhibit area of the Expo by exhibitors.

Subletting/Sharing of Space

Unless approved in writing by CTE, sharing, subletting, assignment or apportionment of the whole or any part of the exhibitor's space by an exhibitor is prohibited. No exhibitor may permit any other party to exhibit in their space any goods other than those manufactured or produced by the contracting exhibitor or permit the solicitations of business by others within their exhibit space.
